EMPLOYEE NEWS & INFORMATION

APRIL 2019

www.stcloudstate.edu/its

Information Technology Services' series of monthly emails to all employees aimed at improving communications with campus about tips, information, technology updates and services offered in ITS.

Partnership Highlight

ITS partnered with the Nursing department to assemble and install a new state-of-the-art Laerdal manikin.

This technologically-advanced manikin will help students enhance their nursing skills, as highlighted in [St. Cloud State TODAY](#).

D2L Annotation Feature

Instructors can now provide feedback directly in submitted assignments using the new annotations tool. The annotations tool includes the ability to add notes, drawings, highlights, strikeouts and underlines.

For more information, use your "StarID@minnstate.edu" login to access an [Annotations in Assignments slide deck and webinar](#).

Wireless Upgrades for WSB

Several buildings including the Wick Science Building, Lewis House, American Indian Center, Women's Center and the Minnesota Highway Safety and Research Center are moving to the new wireless standard (802.11ac) as the third phase of our campus-wide wireless improvement project. These upgrades allow our campus community to experience faster speeds, the ability for more devices to connect without impacting performance, better connection reliability and improved battery life for the 802.11ac-enabled devices.

IT Security Tip

It is a good practice to keep your personal emails separate from your professional email account for several reasons including:

- It is against [Minnesota State policy](#) to share your account with anyone else (e.g. significant other who may want access to a shared bill)
- If you separate from St. Cloud State University, it may be a hassle to move personal information from your professional account

Did You Know?

When using St. Cloud State University's information technology applications and services, you may be "in the cloud" and not even realize it. Our cloud services include:

- Email and storage space
- D2L Brightspace
- EAB Student Success Collaborative
- Website search tool
- ...and many more!

Contact [HuskyTech](#) for technical services, support and sales.
