[ITS Newsletter Archives](#)

Information Technology Services' series of monthly emails to all employees aimed at improving communications with campus about tips, information, technology updates and services offered in ITS.

HuskyTech Sale Begins November 28th

Mark your calendars! HuskyTech will offer a sale on a variety of technology devices and accessories between November 28th and December 16th, 2022. During the sale, select products will be additionally discounted off the educational price. You can browse products carried by HuskyTech through the [online store](#) or in person in Miller Center 102. The sale is for personal purchases only (not department purchases.)

For questions, [contact HuskyTech](#).

IT Partnership Highlight: Esports Expansion

Exciting expansions for SCSU Esports are coming Spring 2023 including new, innovative academic programming and an additional Esports venue, the Huskies Esports Arena. The new arena is inspired by the [HyperX Esports Arena](#) in Las Vegas and will be used for Esports education, gaming and events. These expansions are a result of excellent partnership between several areas across campus.

Upcoming Learning Lab Sessions

ITS is engaged in SCSU Online's Learning Lab Series to support instructional practices and highlight successful strategies. Learning Lab sessions are held on Fridays from 10-11am both in-person (Miller Center 218) and on Zoom.

Join one of the remaining sessions this semester! See the online schedule for specific session dates and details.

Esports at Discover Red and Black

The Esports team joined Discover Red and Black to greet prospective students and their families, and share information about the careers, community and competition opportunities available through St. Cloud State's Esports program.

As St. Cloud State continues to collaborate with students to build a unique, distinguished and inclusive Esports program, the team enjoyed hearing from prospective students about their diverse experience and interest in Esports gaming, activities, academic and career paths, and will leverage that feedback in future Esports program planning.

IT Security Tip: Holiday Shopping

The holiday shopping season is a prime opportunity for bad actors to take advantage of unsuspecting shoppers through fake websites, malicious emails and fake charities. Protect your personal data and money by spending through trusted sources only and ensuring your devices and accounts are updated and secured. Learn more about keeping yourself safe online through the Cybersecurity & Infrastructure Security Agency's holiday safety tips.

Did You Know: Links in Signatures

Adding links to your signature can offer your contacts a simple way to connect with you through your preferred methods (e.g. social media, scheduling Bookings appointments and chatting through Teams). You can also use links in your signature to direct people to important information such as a website, online instructions and more.

Learn more about adding links to your Outlook signature through the Knowledge Base.
